*The above elective courses are suggested; however, this course requirement can be decided by the Sports Sciences Coordinator.*

\*Students may either be denied a field placement or removed from a placement based on the academic judgment of the program director. Placement in most Sports Sciences-related internships requires obtaining the Certified Strength and Conditioning Specialist (CSCS) certification through the National Strength and Conditioning Association (NSCA) before the start of the internship. The first-year coursework will prepare students for the CSCS exam.

\*\*For satisfactory completion of internships, students must achieve a score of 70% or higher.
